THE "J. & P. PREFERRED" DOZEN

GROUP of Hybrid Tea Roses selected for range of color, thriftiness, beauty, and adaptability to all A GROUP of Hybrid Tea Roses selected for range of color, thrutness, beauty, and tampenenty of parts of the country. They have been carefully chosen from a large collection of varieties as best worthy of maintaining the high standard set by the "J. & P. Preferred" Dozens of former years. Ready in autumn 1930 and spring 1931.

Copies of the color pictures of above dozen are available to our customers for sales promotion. Prices on application

Hybrid Tea Roses on Multiflora Japonica stock at Shiloh-a part of our 1930 block

Roses

GRADES. For early fall delivery we offer No. 1 grade only. For late fall and spring delivery we can supply No. $1\frac{1}{2}$ (Medium) grade at 30% off and No. 2 grade at 50% off these prices. The following prices apply on 2-yr. No. 1 grade:

Ramblers and Climbers

(o) On own roots (b) Budded

Per 10

Per 100

	Albertine. Loose clusters of coppery chamois-yellow flowers, changing to coppery rose. \$4 Alida Lovett. A splendid, large-flowered, light shell-pink climber, lighter than Mary	ŧ (00 \$3	35	00
	Wallace and a rapid, vigorous grower, although blooming later	3 (00 2	25	00
ob	 brilliant pink with a white eye, borne in clusters as large as your head. The most popular single-flowered climber	2 2	20 1	18	00
0	regarded yellow climbers	6 (00 2	25	00
oh	cream. Growth tall and rapid	: 5	50 2	20	00
	and generally more satisfactory than Climbing American Beauty 3 BONFIRE. Rambler of Dorothy Perkins type, literally covered with large trusses of	0	00 2	25	00
	crimson flowers. Blooms about two weeks ahead of Dorothy Perkins. A splendid forcer for pot trade	1 5	50 4	ŧ0	00
ł	 CHAPLIN'S PINK CLIMBER. A pink replica of Paul's Scarlet Climber of which it is Blooms in clusters of 8 to 12 fairly large flowers. It is clear pink with a tuft of yello \$7 for 10; \$60 per 100. 				
ob	Christine Wright. A moderate-growing variety of Mary Wallace type, but is the first climber to bloom. It sometimes bears flowers in summer and autumn. A favorite sort				
ob	with many growers	0	0 2	:5	00
	plish crimson. Best grown as a pillar Rose	0	0 2	5 (00
	Bright red blooms, borne freely in June and occasionally thereafter. Moderate vigor. 3	5	0 3	0 (00
	Climbing Gruss an Teplitz. Vigorous, branching grower, bearing continually bright crim- son flowers like the bush Rose of the same name	5		0 (
b	Climbing Hoosier Beauty. Large, velvety crimson blooms	5	0 3	0 (00
D	Climbing Lady Ashtown. A splendid, hardy, climbing Hybrid Tea Rose with exquisite, pointed blooms of vivid pink. This is the best climber of its type	5	0 3	0 (00

	RAMBLER AND CLIMBING ROSES, continued	er	10	Per 1	00
b	Climbing Lady Hillingdon. Beautiful, large flowers of apricot and saffron-yellow. The plant is very vigorous where the winters are not too severe. It blooms all the time\$			\$30	
b	Climbing Los Angeles. The same beautiful salmon and gold flowers as the dwarf, but of strong, healthy growth.			30	
b	Climbing Mme. Caroline Testout. Climbing form of the well-known Hybrid Tea. Prob- ably the hardiest of the type and very free-blooming				
b	Climbing Mrs. Aaron Ward. An extremely vigorous climber with flowers larger than the			30	
b	bush variety Climbing Souv. de Claudius Pernet. Yellow like the bush Rose	3 4	50 00	30 35	
b	Climbing Sunburst. Like the bush Rose of the same name, but a vigorous climber. Flow- ers fine, sunny yellow	3	50	30	00
b ob	Climbing Sunstar. Fragrant, orange and vermilion flowers Crimson Rambler. The old favorite, with large heads of very gay, small, scarlet-crimson	4	00	35	00
	flowers. Recommended for large specimen bushes and hedge-rows Dorothy Perkins. Graceful, twining growth of great vigor. Flowers soft shell-pink, small,	2	20	18	00
	crinkly, in great clusters	2	20	18	00
	vigorous, and has marvelously fine foliage. One of our most popular of all climbers.	3	00	25	00
	Emily Gray. The most beautiful yellow climber, with large golden buds and blooms which do not fade. The foliage is glossy, pointed, and holly-like. Growth very vigorous	3	50	30	00
	Eugène Jacquet. Vigorous, upright grower bearing large clusters of bright cherry-red, double flowers which last a long time. A splendid forcer	3	00	25	00
	Excelsa. Bright crimson flowers in large clusters. Very vigorous and hardy. Preferred by many to Crimson Rambler, and generally called "Red Dorothy Perkins"	2	20	18	00
ob	Flower of Fairfield. Much like Crimson Rambler, but bears occasional flowers in summer and autumn. Frequently called Everblooming Crimson Rambler			25	00
b	Gardenia. One of the strongest growers, with beautiful glossy foliage. Buds rich creamy yellow and open flowers yellow at first. Very popular among the yellow climbers			25	00
o b	Goldfinch. Small, semi-double, yellow flowers, slightly fragrant, borne in clusters Hiawatha. Long, slender canes; fine for arches. Single flowers of American Pillar type,	2	20	18	
	but smaller and redder, with a copper suffusion when nearly open	2	20	18	
	Lady Gay. Very much like Dorothy Perkins, but occasionally blooms in summer and fall. LE REVE. The long-wanted, absolutely hardy, unfading yellow climber. Flowers very	2	20	18	00
	large, semi-double, vivid golden yellow both in bud and open. Foliage dark and glossy; growth very vigorous. Superior in color to Gardenia, Goldfinch, and others of that				
b	type, and much hardier than Emily Gray. A more reliable bloomer than Star of Persia. Maréchal Niel. Lovely lemon- and golden yellow flowers on a strong climbing plant.	4	00	35	00
b		4	00	35	00
	flowers of brilliant light red and salmon-pink	4	00	35	00
b	Mary Lovett. Large, Hybrid Perpetual-like flowers of pure snowy white. A very vigorous grower and one of the finest of its color	3	00	25	00
ob	Mary Wallace. The outstanding large-flowered pink climber. Very brilliant and invariably satisfactory. Growth is enormous and rapid, and the long-stemmed blooms make				
b	good cut-flowers	3	00	25	00
ob	Paul's Scarlet Climber. The most popular red-flowered climber of the day. Flowers large, well-shaped, vivid scarlet-red, fading but little. Has a tendency to bloom again in				
	the fall.	3	00	25	00
ł	PRIMROSE. New hardy yellow climber with double, canary-yellow flowers in great	t.	pro	fusion	ı.
	Lighter than Le Reve and more double. Much hardier than Emily Gray. We believe i satisfactory yellow climbing Rose for the North. It is very new and everyone w	t 1 ho	sth ha	e mos .s it i	st is
	enthusiastic over its merits. \$6 for 10; \$50 per 100.				
ob	Roserie. Exactly like Tausendschön, except that it is several shades darker pink	3	00	25	00
b	SCORCHER. An Australian introduction that has created a world sensation. Very vigorous and hardy with handsome vermilion flowers covering the plant in great				
0	profusion. There is nothing else like it	2	50	100	00
	yellow stamens. Growth even more vigorous than American Pillar. Foliage perfect	3	00	25	00
	Source d'Or. Double yellow flowers much like Aviateur Blériot, but considered some- what hardier.	3	00	25	00
b	STAECHELIN. This most unique climber was discovered in Spain in 1925 by Mr. Nicholas, now head of our Research Department, and has just been awarded the John				
	Cook Medal for the most outstanding climber. Hardy, vigorous grower. Crimson buds opening to large, perfumed, pale pink flowers	0	00	75	00
oł	Tausendschön. Vigorous, thornless plant bearing large clusters of medium-sized flowers varying from creamy white to soft pink. One of the most charming and most popular	-			
_	climbers. Sometimes called "Thousand Beauties"	2	20	18	00

The best block of Baby Roses we have produced in many years. Photographed August, 1930

RAMBLER AND CLIMBING ROSES, continued

	Per 10	Per 100
0	Trier. Moderate grower with large clusters of small, creamy white flowers. Frequently	
	blooms in autumn\$2 20	\$18 00
0	Veilchenblau. Rosy purple buds and flowers turning grayish blue. Extraordinarily vigor-	
	ous and decidedly unusual in color. Usually called the "Blue Rambler"	25 00
0	White Dorothy. Like Dorothy Perkins, except that the flowers are white. The best	
	double, small-flowered white rambler	18 00
0	Wichuraiana. The wild Rose from Korea which is the ancestor of most climbers. A fine	
	ground-cover with glossy leaves and clusters of starry white flowers in midsummer	
	and a profusion of red fruits late in the season 2 50	20 00
0	Yellow Rambler. Yellow flowers in large clusters	20 00

Moss Roses

(b) Budded

		Per 100
	Blanche Moreau. The charming old white Moss Rose with a pale pink heart\$3 00	
	Crested Moss. Beautiful pink buds and blooms with a feathery, hooded calyx 3 00	
	Henri Martin. The best red Moss Rose	
b	White Moss. The fine pure white Moss of old-time gardens	25 00

Dwarf Polyantha or "Baby" Roses

(o) On own roo	ts (b) Budded

		Per	10	Per 1	100
ot	Baby Rambler. The original, light crimson sort with fine heads of small flowers	\$3	00	\$25	00
Ь	Baby Tausendschön. A dwarf, everblooming form of Tausendschön. Very pretty and				
	prolific	3	00	25	00
b	Brilliant Echo. Improved Echo; like Roserie in color but more uniform in color	4	50	40	00
b	Cécile Brunner. Small, perfectly formed, pink and gold buds and flowers like tiny Tea				
	Roses. Very popular and always in demand	3	00	25	00
b	Chatillon Rose. Vivid light salmon-pink, semi-double flowers in enormous heads. Lasts				
	a long time and is extremely prolific. Undoubtedly one of the finest	3	00	25	00
b	Clotilde Soupert. An old-time Polyantha with large, globular flowers of rosy white				
	tinted with pink in the center	3	50	30	00
0	Echo. A soft pink, dwarf sport of Tausendschön, with the same lovely, frilly flowers. Very				
	free-flowering	3	00	25	00
-					-

We cannot undertake to supply long and much assorted lists of stock calling for only small bundles of each kind, as our business is exclusively wholesale and we do not have the facilities to handle retail orders

	DWARF POLYANTHA OR "BABY" ROSES, continued			
1		Per	: 10	Per 100
ob	Ellen Poulsen. Very popular, small-flowered type of soft rose-pink. Vigorous, healthy, and very free-flowering	\$3	00	\$25 00
b	Erna Teschendorff. A very popular bright red sort, much brighter than the original Baby Rambler.		00	25 00
b	Eva Teschendorff. Dwarf grower with large, frilled, snow-white flowers tinted green.	5	00	
	Very dainty George Elger. A delicately beautiful variety shaped like Cécile Brunner, but soft golden	3	00	25 00
0	yellow in bud and paler in open flower	3	00	25 00
b	GOLDEN SALMON. New. Large clusters of striking reddish orange buds and blooms			
	of most amazing color. The compact bushes bloom continually and make a fine mass effect. Attracts unlimited attention and admiration		50	30 00
b	Greta Kluis. A bright crimson sport of Baby Tausendschön of the same type in flower			
b	and habitGruss an Aachen. Large flowers like Hybrid Teas, orange-pink in bud, paling to soft	3	00	25 00
D	salmon-pink and white on opening. This is one of the most remarkable Roses in the			
	world and is unrivaled for mass bedding or edging purposes. It is continually in flower	2	~~	25 00
ob	and suffers from no diseases	3	00	25 00
	Flowers small and in gigantic clusters			25 00
0	Jeanne d'Arc. Pure white flowers in large clusters; delightfully perfumed	3	00	25 00
	fine edging variety	3	00	25 00
b	Lady Reading. A bright, light red sport of Ellen Poulsen with all the good traits of that popular variety.	3	00	25 00
ob	Miss Edith Cavell. Brilliant crimson, with white center. Flowers small, in very large	-	00	
ь	bunches. Free grower and bloomer	3	00	25 00
	undertone. Very showy and satisfactory in every respect	3	00	25 00
b	Mrs. W. H. Cutbush. Soft pink flowers in clusters, like a dwarf, everblooming Dorothy			25 00
b	Perkins. ORANGE PERFECTION. Orange-red. Probably the best of the type for general purposes	3	00	25 00
	and a good forcer for pot trade	4	00	35 00
b	Orléans. The most popular light red sort for many years. Fine, bushy plants crowded with clusters of small flowers all season.	2	00	25 00
b	RUDOLPH KLUIS. Vermilion buds; flowers tinted cerise; of rather large type. Very	3	00	23 00
	free-flowering and compact bush	3	00	25 00
b	SUPERBA. The deepest maroon Polyantha. Vigorous bush, throwing large flowering heads in quick profusion	3	00	25 00
b	Suzanne Miller. Another Orléans sport with bright, fadeless cherry-red blooms. With-	-		
oh	stands both hot and rainy weather without damage Triomphe Orléanais. One of the earlier improvements on Orléans with more profuse and	3	00	25 00
	brighter bloom. Finest of the crimson Polyanthas	3	00	25 00
ob	Yvonne Rabier. Fine, bushy plants with abundant foliage and great quantities of medium-		~~	25 00
	sized, very double white blooms. A fine edging variety	3	00	25 00

Tea, Hybrid Tea and Everblooming Roses (o) On own roots (b) Budded

(Varieties on own roots 5 cts. less, and available for spring delivery only.)

(· · · · · · · · · · · · · · · · · · ·	Per 10	Per 100
o Alexander Hill Gray. White, tinted lemon and gold. A superb Tea Rose for mild climat	es. \$3 50	\$30 00
o American Legion. A popular bright red variety with long stems	3 50	32 00
b Angèle Pernet. The most brilliantly colored mandarin and yellow Rose in existence		35 00
b Angelus. Large, creamy white blooms of exquisite shape, very freely produced	3 50	30 00
ob Antoine Rivoire. Very double, flat flower of creamy white with lilac shading at the cen	ter.	
A very dependable and popular variety		30 00
b Aspirant Marcel Rouyer. A stiff, wiry grower with long-pointed buds and exquisit	elv	
shaped blooms of orange and pale yellow. Very free-flowering and vigorous		35 00
• Augustine Guinoisseau. A popular old Rose of the La France type but pure silvery whit		30 00
ob Betty . A very popular, vigorous Rose with large, handsome foliage and very long, copp		
buds which open to soft pinkish yellow, semi-double flowers of great size. Splen		
for massing in large beds		30 00
b Betty Uprichard. One of the finest new Roses, with brilliant copper-red buds and se		
double, salmon-pink flowers stained with copper-pink on the outside. It is a prof		
bloomer and one of the outstanding varieties in commerce		35 00
b Briarcliff. The most recent and the best sport of Columbia. Fine, handsome flowers		
the even shade of silvery rose-pink		30 00
b CALEDONIA. Large, long-pointed, cone-shaped buds; flowers large, full, double, hi		
centered, borne singly on long, strong stems. When first open, they are slightly len		
tinted, changing to pure white as they develop. A fine garden Rose		75 00

	TEA, HYBRID TEA AND EVERBLOOMING ROSES, continued			D 100
b	Charles K. Douglas. A very fine bright red bedding Rose which is becoming very popular	'er	10	Per 100
	as its merits are known. The flowers are large, semi-double, brilliant light crimson with a scarlet undertone, and are produced in great numbers throughout the season	53	50	\$30 00
b	CHARLES P. KILHAM. The finest variety on the market of the Mme. Edouard Herriot color. The very double flowers are blazing scarlet-orange at first and open bright			
	orange-pink with fiery centers. Good grower, free-flowering, and excellent both for	7	00	60.00
b	bedding and cutting. Château de Clos Vougeot. The ever-popular, almost black Rose which everybody likes so	7	00	60 00
	tremendously. The plants are low and spreading, every shoot tipped with a glowing blackish scarlet bloom of marvelous fragrance.	4	00	35 00
b		4	00	35 00
ob	Clara Watson. Fine, pointed blooms of pearly white, tinted with peach-color in the center Columbia. Popular greenhouse variety which does well outdoors, producing long-stemmed,	3	50	30 00
	pointed flowers of vivid pink throughout the entire season; very perfumed	3	50	30 00
D	Constance. Splendid golden yellow buds stained with crimson outside, opening to large, full, rich sunflower-yellow which does not fade	4	00	35 00
b	COURTNEY PAGE. Beautifully shaped blooms of bright scarlet-crimson, overlaid with		-	
0	a fine velvety sheen. Intensely fragrant Crimson Queen. Showy, cupped flower of bright crimson on long, strong stems	43	50 50	40 00 30 00
b	Crusader. Fine crimson flowers, borne on stiff stems	3	50	30 00
b	Cuba. Tall plants with excellent foliage, producing enormous, semi-double blooms of blazing red-orange. Preferred to Padre by many	4	00	35 00
b	DAME EDITH HELEN. One of the largest and most perfectly shaped pink Roses known.	-		
	Blooms abundantly, with long, strong stems, and the flowers resemble a perfectly			
	shaped, bright pink Francis Scott Key. It has attracted abundant praise and un- stinted admiration everywhere. The most perfumed of all pink Roses	4	00	35 00
b	Dean Hole. Well-shaped flowers of light rose-pink, with old-gold tints at the base of the petals.			30 00
b	Diadem. Copper-pink flowers, held erect on stiff stems	3	50	30 00
b	DORIS TRAYLER. Tall, vigorous growth and long-pointed, orange-yellow buds and		~~	25 00
b	blooms. A splendid new yellow Rose of the Feu Joseph Looymans type Dorothy Page-Roberts. Large, copper-pink buds and flowers suffused with apricot-yellow.	4 3	50	35 00 30 00
b	Double White Killarney. A splendid pure white form of the always popular Killarney, with a few more petals than the type			30 00
ob	Duchess of Wellington. A low-spreading but vigorous grower with long, saffron-yellow			
1.	buds opening to very large, light yellow flowers. Always popular and in great demand.	3	50	30 00
b	DUCHESS OF YORK. Flowers large, very full, of fine form, deep golden yellow, tangerine center.	6	00	50 00
0	Ecarlate. A fine bedding or low hedge Rose of great vigor, with splendid foliage and in- numerable brilliant vermilion, semi-double flowers from spring until frost	2	50	30 00
b	Edel. Splendidly shaped, large, very double white flowers of exquisite texture. Plants	5	50	
1	vigorous and healthy.	3	50	30 00
b	EDITH NELLIE PERKINS. A handsome new variety with long-pointed buds of rich orange-pink, opening to fine salmon-pink blooms with a golden underglow. Very			
h	fragrant	6	00 50	50 00 30 00
	E. G. HILL. <i>New.</i> Great massive blooms of deep maroon, velvety on inside and glisten-	Ũ	00	00 00
	ing outside: very perfumed	7	00	60 00
D	Eldorado. Splendid, vigorous plants with large, solid, golden yellow buds, opening to very double, handsome, bright yellow blooms. One of our finest yellow Roses and becoming			
ь	increasingly popular as its merits are known. The most perfumed of yellow Roses Elsie Beckwith. Beautiful pointed buds with flowers of rich, deep rosy pink. A very vigor-	3	50	30 00
0	eus grower. Emile Charles. A vigorous, bushy plant of the Mme. Edouard Herriot type, with brilliant	3	50	30 00
b	Emile Charles. A vigorous, bushy plant of the Mme. Edouard Herriot type, with brilliant fiery red buds shaded with golden yellow, opening to reddish coral flowers tinted with			
	flame color	4	00	35 00
b b	Ethel Somerset. Beautifully shaped buds and flowers of bright shrimp-pink Etoile de Feu. The handsomest bright orange-pink of its type. Much better than Louise	4	00	35 00
-	Catherine Breslau, Gorgeous, and Arthur R. Goodwin. The plants are very vigorous,			
	low and branching, with healthy foliage, and steadily produce large, blazing blooms of amazing intensity of color	4	00	35 00
ob	of amazing intensity of color Etoile de France. Bushy plants with large, dark crimson blooms. Has long been popular	2		30 00
b	and in great demand Etoile de Hollande. The finest dark red Rose for general purposes, having great vigor	3	50	30 00
	and floriferousness. Its gigantic flowers are velvety crimson and are produced with great freedom throughout the season. This is unquestionably the best and most			
	popular red Hybrid Tea Rose in the world	6	00	50 00

b	Hoosier Beauty. Vigorous plants with large, velvety crimson bloom throughout the season\$3 50	\$30 00
b	H. V. Machin. Robust, stiff-stemmed plants with large, globular, bright crimson flowers	
b	Extremely hardy; fine for cold sections	32 00
b	free-flowering habit	35 00
b	of color	30 00
ob	blooms, richly shaded with apricot and gold	35 00
b	Continually in bloom	30 00
b	Angeles shade	30 00
	 fragrant flowers of fine lasting qualities. We believe it is one of the finest new red Roses. 4 00 Ivy May. A new Rose from England which has shown up remarkably well in our trials and under field-culture. The long-pointed buds open to double, rose-pink blooms, shaded with amber at the base of the petals and suffused with golden yellow at the back and on the edges. We think it is a very fine thing	35 00 30 00
b	JOANNA HILL. New. A glorified Mrs. Aaron Ward. Heavy lemon buds, evolving into a semi-double bloom with Indian yellow center surrounded by bold cream petals.	
1	John Cook. A dwarf, bushy grower and very floriferous. Very useful as a bedder. The	60 00
b	four cook. A dwarf, bushy grower and very floriterous. Very useful as a bedder. The flowers are much like La France—bright rose and silvery pink. Very fine	35 00
b	JOHN RUSSELL. A vigorous grower of almost Hybrid Perpetual habit, with large flowers borne singly on the top of strong stems. It is rich crimson-scarlet, shaded with black, and at all stages of the bloom is one of the most perfectly formed flowers we	
ob	 have ever seen. It blooms with us continuously from June until frost	40 00
b	wherever seen	30 00
	semi-double flowers shaded with gold and amber 3 50	30 00
b	JULIEN POTIN. This is the Rose which was introduced to the greenhouse trade several years ago as Golden Pernet. It is a fine grower, slightly richer in color than the original	
	Pernet, with more and better-placed petals, and never shows the black center which disfigured the older Rose	40 00
b	Juliet. A strong-growing Hybrid Perpetual type, with large, pointed blooms of old-gold and bright carmine-pink. 3 50	30 00
	 K. of K. Strong, bushy plants with semi-single, scarlet, star-shaped flowers in great pro- fusion. An excellent bedder	30 00
ob	Kaiserin Auguste Viktoria. The standard, double, pure white bedding Rose which has been popular and in great demand for many years	30 00
o b	Killarney. An old favorite with splendid, bright pink buds and large, unfading blooms 3 50 Killarney Brilliant. Much like Killarney but so bright a pink that it is almost red 3 50	30 00 30 00
ob	Killarney Queen. Has more petals than Killarney and the color lies between Killarney and Killarney Brilliant	30 00
b	La France. The oldest Hybrid Tea, with lovely, double, pale pink blooms, more deliciously scented than any other. It is still desired by many who remember its unsurpassed	
~	fragrance	30 00
	La Tosca. Strong, thornless bushes with large, cup-shaped, silvery pink blooms. A fine Rose which merits general popularity	30 00
D	Lady Alice Stanley. Sturdy, active bushes with distinctive, healthy foliage and large, erect, very double flowers of light silvery pink, darker on the outside of the petals. This is one of the best Roses in the list and has been popular since the day of its in-	
ob	troduction. Its unusual hardiness recommends it for cold climates	30 00
b	stand-bys which is always in great demand	30 00
	with rose and old-gold	35 00
	 LADY FORTEVIOI. New. Large buds, opening to very large, double, bright golden yellow flowers, flushed with cardinal-red, borne in clusters on long, strong stems. Hardy, continuous bloomer	75 00
U	buds and exquisitely formed open blooms produced continuously. Probably the hardiest of all Tea Roses and undoubtedly the best yellow bedding Rose	30 00

We cannot undertake to supply long and much assorted lists of stock calling for only small bundles of each kind as our business is exclusively wholesale and we do not have the facilities to handle retail orders

TEA, HYBRID TEA AND EVERBLOOMING ROSES, continued

b	LADY INCHIQUIN. Large, full, perfectly shaped, orange-cerise flowers. Very decorative.		10	Per : \$40	
	LADY MARGARET STEWART. Stout, erect plants with immense, copper-orange buds,		50	Φ Ŧ 0	00
	opening to bright golden yellow flowers of wonderful shape and luscious color. It is a severe rival of Rev. F. Page-Roberts and it would not surprise us to see it become even				
1	more popular	5	50	45	00
	LADY MARY ELIZABETH. Large, long-pointed buds; flowers large, double, high-centered, lasting, fragrant, brilliant carmine-pink	4	50	40	00
b	Lady Pirrie. Tall, very healthy bushes, continuously producing bright copper-pink buds of lovely shape, which open to large, pale bronzy yellow flowers passing to nearly				
	white. Similar in general appearance to Mrs. A. R. Waddell, but a much stronger plant and more beautiful flower. Lady Pirrie is so good that it deserves much wider				
1	planting		50	30	00
OD	Lady Ursula. Another old stand-by of the highest quality. The bush is very strong and continuously produces its well-shaped, pale pink blooms. Unsurpassed for bedding				
b	where a mass of flowers is desired all the time	3	50	30	00
	blooms. One of the handsomest Roses in existence Lieutenant Chauré. Dwarf, bushy plants with bright red, semi-double blooms produced	3	50	30	00
	unceasingly	3	50		00
b b	Lord Calvert. One of John Cook's Roses, with brilliant velvety red flowers LORD CHARLEMONT. Glowing scarlet-red flowers of wonderful shape and substance				00 00
b	Los Angeles. Beautifully shaped, fragrant flowers of pale salmon-pink, richly shaded with deep rose and gold. Extremely popular with everyone for its beauty and fragrance.				00
	Louise Catherine Breslau. Low-spreading plants with brilliant orange-pink, double flowers.	3	50		00
b	LUCIE MARIE. New. Long-pointed buds of deep yellow, splashed with red. As the outer petals unfold, the inner face is yellow with coppery veination, tips of petals				
	lightly tipped pink; slightly fragrant. Most distinct bedding variety	10	00	75	00
ob	MARGARET McGREDY. The first time in three generations of the house of McGredy that a Rose was thought good enough to be named for a member of that Rose aristo-				
	cratic family. Much was expected of Margaret, but she won everywhere with flying colors. Brilliant red petals on hinges of deep gold. Buds upright. Seldom out of bloom.	4	00	35	00
b	MARY PICKFORD. Bud large, long-pointed, orange-yellow; flower large, double, pale				
ь	yellow, deeper at center, very fragrant	6	00 -	50	00
	flowers of salmon-pink, shaded with coral and yellow	4	00	35	00
b	MAY WETTERN. New. Very deep pink-salmon bloom; fine pointed buds. Fine, strong bush, free from disease	4	50	40	00
b	MEVROUW G. A. VAN ROSSEM. A startling novelty with vivid orange and apricot buds, opening to brownish yellow flowers, strongly shaded with copper-pink. This				
	new variety has created a decided stir wherever it has been seen, and we believe it will				
b	be widely popular in this country Miss Cynthia Forde. One of the old stand-bys, with erect stems, good foliage, and brilliant,	10	00	75	00
b	double pink flowers unceasingly produced	3	50	30	00
	at the base; extremely fragrant		50	30	00
b	MISS ROWENA THOM. A striking novelty of last year with gigantic blooms of brilliant satiny pink, shaded with orange-flame at the center. It has the enthusiastic approval				
b	of all who have seen it and we predict great popularity for it	6	00	50	00
	but gradually develops peachy pink tints in the middle. We consider it one of the finest white Roses because of its fine blooming qualities in hot weather	2	50	30	00
b	Mme. Alexandre Dreux. Dwarf, free-flowering bushes with small, ripe mandarin flowers				
ob	Mme. Butterfly. The finest Rose of the Ophelia type, bright light pink, shaded with gold.		50		00
b	Very popular and always in demand	3 3	50 50	30 30	
b	Mme. Colette Martinet. Dainty, little, pointed flowers of pale yellow. Attractive for			30	00
ob	buttonhole use. Mme. Edouard Herriot. The original of all the bright orange-pink varieties and still one of the best Decourse its with an anti-fit or the state of the best of the state of the stat		00	35	
b	of the best. Deserves its wide popularity	4	00	55	00
	lightly tinted with pink at the center, produced abundantly throughout the season. This is the most dependable white Rose for bedding purposes		50	30	
o ob	Mme. Jules Grolez. Brilliant, pointed flowers of satiny rose-pink and exquisite shape Mme. Léon Pain. Stocky, spreading plants with beautiful foliage and large, ruffled, light		50	30	00
	pink flowers of beautiful form and fragrance. A fine thing for bedding and has been popular for many years; almost immune from black-spot	3	50	30	00
	r-passe sor many years, annos minimune from black-spot	-			

	TEA, HYBRID TEA AND EVERBLOOMING ROSES, continued	Pei	r 10	Per 100
b	Mme. Poincaré. Handsome new Rose shaped like Antoine Rivoire but of rich, peachy		~~	0 2 7 00
b	color which is most attractive	4	00	\$35 00 35 00
ob	Mme. Segond Weber. Blooms very double, bright rose-pink shaded salmon	3	50	30 00
b	Mrs. Aaron Ward. Low, bushy plants with pointed, holly-like foliage and fine fawn-colored buds and open blooms. Has been popular for many years and is still in great demand	3	50	30 00
b	Mrs. Ambrose Ricardo. Enormous, incurved flowers of fine peach-yellow shaded with			
b	pink. One of the finest Roses for cutting	3	50	30 00
Ű	and high-pointed blooms of light, glowing pink, tinted with salmon. Although very			
oh	new, it has made a name for itself, and we think it will be very popular	4	00	35 00
00	darker salmon-pink and sometimes scarlet in the bud. Very free-flowering	3	50	30 00
b,	MRS. BEATTY. Flowers of perfect shape, Maréchal-Niel-yellow; fragrant	5	50	45 00
ob	Mrs. Charles Bell (Salmon Radiance). The most beautiful of the Radiance family, with all the good qualities of Radiance and Red Radiance, but flowers of a clear shade of			
	salmon, turning to pearly pink	3	50	30 00
b b	Mrs. Charles Lamplough. Flower very large, pale lemon-yellow; fragrant. Vigorous Mrs. C. W. Edwards. A very showy bright red Rose which seems worthy of being included	4	00	35 00
U	in almost any garden	4	00	35 00
b	MRS. ERSKINE PEMBROKE THOM. Generally conceded to be immensely superior			
	for garden planting to Souv. de Claudius Pernet and others of that type. The fine long buds open into perfectly shaped, open flowers of rich lemon-yellow. Very vigor-			
	ous and continuously in bloom	4	00	35 00
b	MRS. HENRY BOWLES. Magnificent flowers of dark, lustrous pink, very freely pro-			
	duced by healthy, vigorous plants. There is no question that this is the finest of the modern pink introductions and is destined to become one of the most popular			
	Roses in America. The rows of it in our fields have been in splendid condition all			
b	summer, standing far above older varieties of similar color	4	50	40 00
U	cessantly produced by low, branching bushes. It has a larger and more artistic bud			
	than Radiance, on which it is an improvement, and the plant has equal blooming			
	qualities, vigor, and health. This is a modern Rose, much superior to the old-time pinks, and is rapidly becoming very popular	4	00	35 00
b	MRS. LOVELL SWISHER. A new variety with immense, heavy flowers of pale flesh-			
	pink, excellent growth, and strong, erect stems. It is an improvement on Antoine Rivoire, Prince de Bulgarie, and Pharisäer, which it is fast displacing	4	00	35 00
0	Mrs. MacKellar. Lovely long cream-white buds and very large flowers		50 50	30 00
b	Mrs. S. K. Rindge. Well-shaped buds and semi-double, open blooms of soft yellow, quickly		50	20.00
b	turning to soft pink	3	50	30 00
	shaded with orange and apricot	4	50	40 00
b	Mrs. Wakefield Christie-Miller. Sturdy, erect plants of distinct habit, with splendid foliage and large, peony-shaped blooms of brilliant light pink. This is one of the most			
	dependable bedding Roses on the market and is becoming more popular and more			
b	widely planted every year as it grows in favor with everybody	3	50	30 00
	shaped flowers of very light pearl-pink with golden yellow at the base of the petals.	3	50	30 00
b	Mrs. W. E. Nickerson. Semi-double, soft silvery pink flowers, shaded with old-gold and salmon.	2	50	30 00
b	salmon NIGHT. New. The darkest crimson Rose so far raised. The English National Rose	3	50	30 00
0	Society's Annual describes it as black, shaded maroon. Flowers are medium size, full,			
1	of perfect form, sweet scented. Blooms freely	.5	00	125 00
b	buds which open to cup-shaped, canary-yellow blooms brightly edged and flushed			
	with pink and scarlet. A very distinct and worthy variety which attracts unbounded	_	-0	45 00
ob	admiration	5	50	45 00
	flowers	3	50	30 00
b	Ophelia. One of the most popular of all Roses because of the lovely shape of its pearly white blooms and the freedom with which they are produced	3	50	30 00
b	Padre. Slender, erect plants bearing large, almost single blooms of a more vivid shade of			
	copper-orange than Mme. Edouard Herriot. Makes a stunning picture when planted close together in a large bed	3	50	30 00
b	PINK BEAUTY. Very vigorous, bushy plants with wonderful foliage and large, cupped	-		00 00
	blooms of the Radiance type, but several shades lighter pink. It makes a splendid	4	00	25 00
ь	bed because of its compact habit and is always in flower PINK PEARL. Of the Columbia type, with larger and darker more brilliant pink blooms.	4	00	35 00
	We consider it the finest of the Roses of this class and recommend it unreservedly	4		35 00
b b	Premier. Beautiful, fragrant, dark rose-pink blooms on erect stems Premier Supreme. Similar to Premier, but brighter color—almost red	3	50 50	30 00 30 00

The J. & P. Rose Test-Garden, planted spring, 1930, photographed in August. In another year this should be a glorious sight, but the photograph, as shown here, indicates the thorough testing we give to all new varieties, growing them under regular garden conditions.

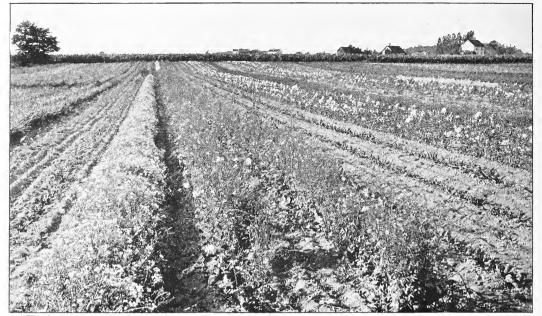

We cannot undertake to supply long and much assorted lists of stock calling for only small bundles of each kind, as our business is exclusively wholesale and we do not have the facilities to handle retail orders

Dutchman's Pipe at Newark. Real he plants. True Aristolochia sipho

Hardy Perennial Plants at Newark. We are offering an excellent assortment of strong transplanted stock

Hardy Perennial Plants

Strong transplanted stock from the open field. One season older than much of the stock frequently offered. Varieties marked with an asterisk (*) are best suited for rockeries

*ABRONIA (Yarrow). Per 10 Per 100 Umbellata. Pink Sand Verbena.
Lilac-rose flowers\$1 50 \$12 00
ACHILLEA
scented.
Ptarmica, The Pearl. One of the
best hardy perennials. Blossoms
from spring on.
AGROSTEMMA (Rose Campion).
Coronaria. Mullein Pink. Mixed
colors. Stout, erect-growing
plants with silvery foliage. Showy
flowers are produced during June and July 1 00 8 00
*ALYSSUM (Rock Madwort). Saxatile compactum. Masses of
bright yellow flowers in early
spring. Excellent plant for the
rockery or borders 1 00 8 00
ANCHUSA 1 00 8 00
Capensis angustifolia. Narrow-
leaved. Sky-blue flowers.
Italica, Dropmore. Spikes of beau-
tiful blue flowers produced all
summer.
ANEMONE (Windflower).
(Except as noted.)
Hupehensis. Early Anemone. Grows from 12 to 14 inches high,
and from early in August until
late in autumn produces an
abundance of mauve-rose flowers
about $I_{\frac{1}{2}}$ inches in diameter.
Hardier than the Japanese va-

rieties.

door variety. Midseason. CHRYSANTHEMUM maximum. See Shasta Daisy.	D
COREOPSIS. Lanceolata grandiflora flore-pleno. Large, yellow flowers, fine for cutting	
DELPHINIUM (Larkspur) (Except as noted). \$80 per 1000 1 25 10 00 Belladonna. Clear turquoise-blue.	D
 Belladonna, Pfitzer's Improved. Clearsky-blue; stems heavier and flowers heavier and much fuller than old Belladonna. Also has greater keeping qualities. \$1.50 for 10; \$12 per 100. Belladonna, Improved (Blue Cave). New. One of the earliest blooming Delphiniums, flow- ering about two weeks before the common Belladonna. The beautiful spikes of dark indigo-blue flowers are fine for cutting. Also this variety is a good forcer, because of its fine color, compact spikes, and early bloom- ing habits. \$2 for 10; \$15 per 100. 	D
 Bellamosa. Deep blue. Formosum. Rich blue flowers, tinged purple; white eye. Gold Medal Hybrids. Mixed. Very large spikes. Grandiflorum. Siberian Larkspur. Azure-blue. Grandiflorum chinense (chinense). Slender Larkspur (Blue Butter- fly). Fine feathery foliage. Large, gentian-blue flowers. Grandiflorum ch i n e n s e album (chinense album). Similar to D. grandiflorum chinense, but white flowers. 	E E *F
 Hollyhock. New. The flower-spikes are of enormous size and quite tall. The blooms resemble Hollyhocks, which is how the variety got its name. Mixed colors. \$2.50 for 10; \$20 per 100; \$150 per 1000. Hybrid giganteum plenum. New Extra-strong 	*G *G
 Hybrid giganteum plenum. New. Extra-strong grower with dark green foliage. The individual flowers are double and as large as 2 inches in diameter and are of the finest shades of blue. This is undoubtedly one of the finest Delphiniums on the market. \$2 for 10; \$15 per 100. Vanderbilt Hybrids, Mixed. New. Similar to Prize Medal Hybrids, but from a better strain. \$2.50 for 10; \$20 per 100; \$150 per 1000. 	G

NAMED FRENCH LILACS, continued

- *Jacques Calot. S. Very large panicle of delicate rosy pink flowers. The individual flowers are unusually large.
- *L'Oncle Tom. S. Large spikes of very dark purple flowers.
- *Marie Legraye. S. Pure white; fragrant. Fine for forcing
- *Michel Buchner. D. Dwarf. Very double pale lilac blooms.
- *Miss Stepman. S. White.
- *Mme. C. Perriere. D. Creamy white.
- Mme. Felix. S. White. *Mme. Lemoine. D. Pure white. Very fine.
- *Othello. S. Flowers purplish red; panicles large. Fine. *Philemon. S. The darkest shade in Lilacs. One of the best.

- *President Grevy. D. A beautiful shade of blue. Individual flowers large.
- *President Viger. D. Bluish lilac. Extra fine.
- *Princess Alexandra. S. White; large panicles. Fine.
- Reine Elizabeth. S. White. Fine.
- *Rene Jarry-Desloges. D. Panicles very large. Perfectly formed flowers of a rarely beautiful shade of blue. One of the best.
- *Stadtgartner Rothpletz. S. Dark purple.
- *Souvenir de Ludwig Spaeth. S. Panicles long; individual flowers large, dark purplish red.
- *William C. Barry. S. Buds reddish lilac, opening silvery lavender or pearly lavender. Flowers somewhat cup-shaped.

N

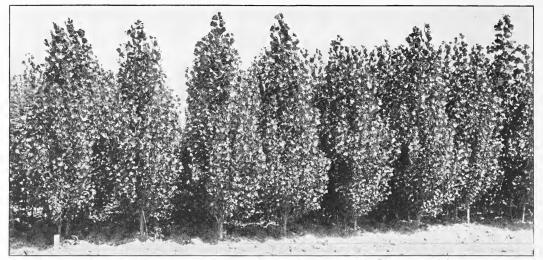

PYRAMIDAL MAPLE

Rapid-growing, and one of the most effective trees for screens and street-planting, taking the place of the objectionable Lombardy and other Poplars once used for this purpose but now so much in disfavor. The upper picture shows their use as a screen, acting as a rapid-growing boundary marker. The lower picture shows a 3-year-old block of these handsome trees in our Nursery.

Evergreens for Lining Out

Evergreens of all important varieties! Young, thrifty stock grown with experienced skill and backed by the resources of one of the largest nurseries in the world. These are really specimen trees in miniature, with full, bushy tops, and abundant, vigorous roots. For best results, we recommend fall planting. T, indicates once transplanted; TT, twice transplanted;

Statement of Inspection for Trueness to Name, 1930 Amherst, Mass., July 12, 1930

To Whom It May Concern: I have examined for trueness to name all salable A pple stock now growing in the nurseries of Jackson & Perkins Company, Newark, New York, and I now declare that to the best of my knowledge and belief these trees are true to variety name as they stand in the nursery rows.

(Signed) A. P. French.

Terms and Conditions of Sale

This list cancels all previous quotations. All agreements and contracts are made subject to crop losses through unavoidable causes.

THE PRICES in this list are based upon present market conditions and are subject to change without notice. We invite correspondence with prospective buyers, and shall be pleased to quote special prices on want-lists for larger quantities than are named herein. On the other hand, these are wholesale prices and apply only to wholesale quantities; in no case will we fill retail orders, even from nurserymen. All orders should be made up for Io's or multiples of Io.

TERMS. The usual terms are offered to those of established credit or whose responsibility is known to us. Cash, security, or satisfactory references are required from unknown parties. All bills are due in sixty days unless other arrangements are made at the time of sale. All prices are net and not subject to any discount unless specially agreed upon. Interest charged after maturity.

SHIPPING. Customers are requested to give definite instructions for shipping. In the absence of special instructions we will use our own judgment, but with the distinct understanding that it is without responsibility on our part. All shipments travel at the risk and cost of the purchaser. We have the New York Central, the West Shore, the Pennsylvania Railroads, also the Rochester and Syracuse interurban trolley line, enabling us to ship in any direction over trunk lines. Express is handled over three of these routes.

BOXES will be charged for at the rates noted below. These prices are somewhat reduced because we are now able to buy lumber somewhat more reasonably. However, these rates do not really cover present actual cost to us.

Add 50 cents on all sizes of 12-foot boxes; decrease in same proportion for shorter boxes.

BALES will be charged at actual cost of the material. We make no charge for packing or for delivery to the railroad station.

CLAIMS for any cause must be made promptly on receipt of goods. Any stock that is not exactly as represented must be reported promptly and on authority should be returned to us immediately. We will cheerfully and without question credit back the unsatisfactory plants, or send others; but we will not entertain claims made after goods have been once accepted, or when report is not made within ten days after arrival of the stock.

LIMITED LIABILITY AND NON-WARRANTY. In the event the nursery stock, or any part of it, sold by Jackson & Perkins Company, Newark, New York, should prove to be untrue to the name under which it is sold, or prove not to be of the kind or quality of nursery stock it was sold for, or ordered for, a replacement of the stock as originally ordered, or intended to be sold, without charge therefor, or a refund of the purchase price shall be a complete and entire satisfaction for any and all liability therefor of the seller, and such replacement or a refund of the purchase price it is agreed shall be the liquidated damages and all the damages to which the purchaser shall be entitled by reason of the premises. Except for such limited liability as herein set out, the seller, Jackson & Perkins Company, gives no undertaking or warranty, expressed or implied, as to the description, quality, growth, productiveness, or any other attribute of the nursery stock sold by Jackson & Perkins Company.

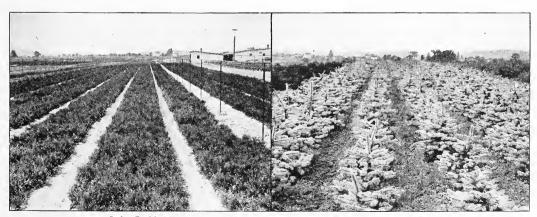

INSPECTION AND FUMIGATION. Certificate of Inspection will be furnished with every shipment and, when required, stock will be fumigated.

SPECIAL NOTICE. Correspondents are requested to use their printed business letterheads. We do not quote prices to retail buyers nor sell to planters; we have no retail trade of our own, and sell to the trade only; in justice to our only customers, the nurserymen, florists, and dealers, we use every effort to limit the distribution of trade prices to those whom we know to be entitled to receive them. Use printed stationery, or enclose business card.

LOCATION. We are located 30 miles east of Rochester, N. Y., and cordially invite a visit and inspection of our establishment.

Newark, New York, September 1, 1930

PRINTED IN U.S.A.

NEW YELLOW CLIMBING ROSE

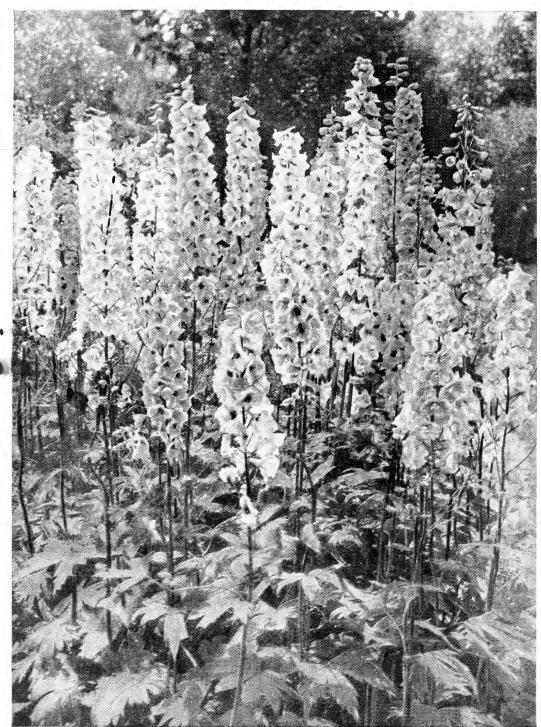

Primrose

CLEAR, light yellow flowers, bringing for the first time the unfading tones of Souvenir de Claudius Pernet into the Climbing Roses. The plants are hardier than other yellow Climbers, grow vigorously, and bloom profusely. The best hardy yellow Climbing Rose to date.

For prices see Roses (Ramblers and Climbers), and note also the very complete assortment of other varieties.
